---

The SMA Sunny Highpower Peak3 150-US is a grid-tied 150,000 watt (150 kW) AC output PV solar inverter designed for large-scale ground mount and power plant solar projects. The ...

SUN2000-150K-MG0 boasts unparalleled performance in challenging business scenarios, standing the test of time. With over 1,000 rigorous tests, including lightning protection, ...

Engineered with SMA's cutting-edge technology, this 150kV, 1500V inverter is tailored for high-performance applications, delivering maximum power output with unparalleled precision.

Find reliable 150kva inverters for solar and hybrid systems. Shop high-quality brands like Atess, Growatt, and Dawnice. Perfect for off-grid and on-grid applications.

SMA offers the ONLY 1,500 VDC inverter with the capability of interconnecting at 480 VAC without adding significant additional equipment and incurring lost energy production.

With its compact design, the inverter offers maximum power density at minimum weight. This results in less expensive transportation and simplified installation.

Combined with the rich online O& M tools provided by the Solis cloud platform, it can effectively reduce O& M costs, simplify O& M, and improve system efficiency. This inverter provides more ...

This 1,500 VDC inverter offers high power density in a modular architecture that achieves a cost-optimized solution for utility-scale PV integrators. With fast, simple installation and ...

SMA Sunny Highpower PEAK3 150-US 150KW 600V three-phase string inverter Purpose-built for utility-scale and large C& I arrays, the PEAK3 150-US delivers 150 kW of AC power at 600 ...

# 150kva solar inverter
