-----

China claims its Super Air Power Bank, the largest liquid air energy storage facility in the world, has a 95 percent cold storage efficiency.

The California Energy Commission has issued its final permit for the Willow Rock Energy Storage Center, a first-of-its-kind energy storage system capable of discharging at full ...

Hydrostor secures key permit for 500 MW, 8-hour California energy storage facility The installation would be the Canadian company's first grid-scale deployment of its "advanced ...

Hydrostor's 7-gigawatt energy storage project pipeline includes compressed air facilities in Australia and Europe as well as the US and Canada. The Canadian project is ...

Using Hydrostor's proprietary Advanced Compressed Air Energy Storage (A-CAES) technology, the project will convert surplus electricity into ...

Hydrostor's GEM A-CAES has received a conditional loan guarantee of up to \$1.76 billion from the US Department of Energy (DOE) to build the Willow Rock Energy ...

With a rated power of 300 MW and 1,500 MWh (5 hours) of discharge capacity, this project focuses on large-scale, grid-connected ...

The world's first 300-megawatt compressed air energy storage (CAES) demonstration project, "Nengchu-1," has achieved full capacity grid connection and begun ...

With a rated power of 300 MW and 1,500 MWh (5 hours) of discharge capacity, this project focuses on large-scale, grid-connected storage to aid the integration of renewable ...

BEIJING-- (BUSINESS WIRE)--The world's first 300 MW compressed air energy storage (CAES) demonstration project, "Nengchu ...

BEIJING-- (BUSINESS WIRE)--The world's first 300 MW compressed air energy storage (CAES) demonstration project, "Nengchu-1," was fully connected to the grid in ...

The 60 MW/600 MWh storage project is co-located with a 250 MW photovoltaic plant allowing for a high level of green energy self sufficiency.
