-----

Italian battery energy storage system (BESS) maker Eiko Power is launching a technology joint venture with Chinese inverter manufacturer Guangzhou Sanjing Electric Co ...

The new storage capacity will be acquired through tenders published by Terna, the manager of Italy's high voltage grid. The next tender will be released in 2024.

The development of bigger battery energy storage systems (BESS) is booming in Italy, but deployment of residential and commercial and industrial (C& I) equipment fell in 2024.

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new ...

This month we speak to Marco Petrone, CEO of Telis Energy Italy, about the role of Battery Energy Storage Systems (BESS) in fast-tracking the future of energy in Italy.

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three ...

GSL Energy offers customized lithium battery storage solutions designed specifically for the Italian market--helping you store solar power, reduce grid reliance, and achieve greater energy ...

China's new "Battery Corridor" along the Yangtze River will store enough energy to power Shanghai for 48 hours. Meanwhile, Italy's Terna is burying storage systems in ...

Italy added more energy storage capacity in 2024 despite fewer installations, as larger utility-scale battery energy storage systems (BESS) exceeding 1 MWh dominated the ...

Italy's energy storage landscape is undergoing a major shift, with utility-scale battery energy storage systems (BESS) experiencing exponential growth in 2024, even as ...

Battery storage projects between 5-15 kWh make up the bulk of Italy's battery storage market. In most cases, these systems are customer-sited and coupled with solar PV systems.
