S5-GC60K-LV-US string inverters are suitable for three-phase commercial rooftop PV projects with grid voltage of 240 or 208VAC. Both string inverters have high input currents, which ...

Both string inverters have high input currents, which enable support of larger PV modules without compatibility issues, better supporting power density and flexibility.

The 50 & 60kW (55 & 66kVA) medium power CPS three phase string inverters are designed for ground mount, rooftop and carport applications. The units are high performance, advanced ...

This 60kW transformerless inverter features 8 independent MPPT channels with 32A string current capability, engineered specifically for commercial rooftop installations requiring low ...

Sol-Ark(R) 60K-3P-480V-N commercial hybrid inverter is engineered for large commercial businesses, supports both AC and DC coupling, and seamless backup power. Learn more.

The Solis S6-GC60K-US Three Phase Inverter is designed for commercial and industrial solar energy systems. This inverter offers exceptional efficiency and advanced safety features, ...

With Sol-Ark's remote access features and app you are never out of touch to quickly repair or adjust any system without being on site. Supports simultaneous DC and AC coupling.

With 8 MPPTs, advanced AFCI protection, and integrated APS RSD transmitter, this 60kW inverter offers unmatched safety, monitoring, and output optimization for modern solar systems.

G36/60 CX-US is a three-phase string inverter with 36 kW and 60 kW options for commercial installations, making it ideal for businesses looking to optimize their solar power systems.

60kW solar grid-connected inverter
