Who dominates the 5G market in Finland?

The 5G market in Finland is dominated by three key players, Elisa, Telia, and DNA. The coverage of 5G in the country is challenged by a vast contrast between urban and rural areas.

Is Finland covered by a 5G network?

Half of Finland's population is soon to be covered by a 5G network. While 5G networks are constructed and consumers adopt 5G phones in increasing numbers, the application of the new technology in industry and business is making progress.

What is 5G mobile broadband?

The fifth generation of mobile broadband, or 5G, is the most advanced mobile broadband technology developed in response to the increasing demands for faster and broader bandwidth. It is currently being deployed in several markets around the world, including in the United States and many countries in Europe.

Why is Finland a key location for Nokia Bell Labs?

In addition, Finland is a key location for Nokia Bell Labs with an unrivalled track record of innovation- 10 Nobel prizes. Nokia Finland is the clear leader in Nokia's patent applications globally: 25% of all Nokia's patent applications (first filings) in 2023 originated from Finland.

More than 60 new 5G towns were added to the scope of the 5G network in 2022, and DNA's 5G services can now be used in a total of 203 locations around Finland. The ...
