Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

With an existing tracking solar mount, we aimed to integrate their existing solar in the new off-grid system, which would be housed in a converted shipping container and also ...

We decided to place the containers 40ft apart. Our initial plan was to use this as our solar business garage. 56ft by 40ft: 2240sqft of space with 640sqft environmentally controlled.
