-----

The 48V 200A Smart BMS for Solar Power Systems is designed for LiFePO4 and lithium-ion batteries. It features CAN RS485 communication, ensuring safe and efficient operation of your ...

A bluetooth BMS, or Bluetooth-enabled Battery Management System, is a digitally intelligent controller installed in lithium battery packs to ensure safety, performance, and ...

In this guide, we'll explore whether you can add an external BMS to your lithium battery, how it works, and why it might be a game ...

A bluetooth BMS, or Bluetooth-enabled Battery Management System, is a digitally intelligent controller installed in lithium battery packs ...

In this guide, we'll explore whether you can add an external BMS to your lithium battery, how it works, and why it might be a game-changer for your energy system.

Protects the lithium battery cells from overvoltage, undervoltage or a too low or high temperature by turning off loads or charge sources via its "load disconnect" and "charge disconnect" ...

Comprehensive guide to BMS for lithium-ion batteries. Learn battery management system functions, safety features, and protection mechanisms in 2025.

We offer over 500 product specifications, including hardware and software BMS, and active balancers, ranging from 3V to 1500V and 10A to 500A. Our dedicated business team is ...

With its robust aluminum housing and IP65 protection rating, the JK BMS 150A is designed to withstand
