What is a solar tile manufacturer?

As a solar tile manufacturer, we offer innovative solutions to meet your solar product needs. Our solar tiles integrate advanced solar cell technology and can be a direct replacement for traditional tiles as part of a building's roof, providing clean, renewable energy for your home.

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

What certifications do solar roof tiles have?

Our solar roof tiles have passed the following international and domestic certifications: CE certification, TUV certification, CFR-CTC certification, and CQC certification. You can use our solar roof tile products with confidence to provide your family with independent, clean, renewable energy. Contact us now to get Gain Solar discount price

Solar Tile Roof manufactures and distributes the world's most energy-efficient and aesthetically pleasing solar-integrated roof tile system.

Our innovative tiles combine roofing and solar panels for efficient, aesthetically pleasing energy solutions that enhance sustainability and provide reliable power for residential applications.
