-----

Openex specializes in custom fabrication of platforms, tanks, enclosures, and structural parts for lithium battery production lines using carbon steel, stainless, aluminum, and nickel alloys.

Our lead-acid battery production line provides a complete solution for traditional battery formats. It is highly suitable for cost-sensitive and heavy-duty applications with stable technology and ...

TOBGROUP specializes in custom battery production line, pilot line, and lab line solutions for battery R& D and manufacturing, supporting battery ...

Get your battery charging cabinets from the leading fabricator. Depend on Openex to eliminate supply chain delays and deliver quality cabinets--from small to extra-large.

Our end plates provide high structural integrity, precise alignment, and excellent electrical insulation, ensuring stable and safe battery module assembly for various demanding applications.

TOBGROUP specializes in custom battery production line, pilot line, and lab line solutions for battery R& D and manufacturing, supporting battery technologies including lithium-ion, solid ...

Are you planning to invest in lithium-ion or sodium-ion battery manufacturing equipment? We have developed a detailed 5-step guide to help you ...

We offer modular and flexible solutions to cover many fields, such as energy storage systems of research and development machines, as well as complete assembly lines for module and ...

We offer modular and flexible solutions to cover many fields, such as energy storage systems of research and

development machines, as well as ...

SAMKEE ENERGY SOLUTIONS end-plate products are applied to well known EV batteries platforms such as Volkswagen, Porsche, and Ford, and we aim to become a global No. 1 ...

Are you planning to invest in lithium-ion or sodium-ion battery manufacturing equipment? We have developed a detailed 5-step guide to help you clearly define your vision of an ideal production ...

For cell/module pack assembly, PIA Automation offers flexible and highly automated systems for the efficient production of battery cells, modules, and battery packs. These systems are ...
