Liebherr provides modular solutions for battery pack assembly - from individual process stations through to fully automated turnkey systems.

Modular and scalable battery assembly automation solutions. Turnkey projects to design the line that best fits your production volumes.

Discover the key features of a modern battery pack assembly line and how expert design and automation can boost performance, flexibility and output.

Discover the key features of a modern battery pack assembly line and how expert design and automation can boost ...

As per our latest research, the integration of automation fixtures is significantly enhancing productivity, precision, and scalability in battery pack assembly lines, cementing their role as a ...

For cell/module pack assembly, PIA Automation offers flexible and highly automated systems for the efficient production of battery cells, modules, and battery packs. These systems are ...

Designing an effective battery pack assembly fixture requires balancing precision, durability, and adaptability. Unlike generic jigs, these fixtures must account for unique ...

Highly standardized, with automation modules selectable based on customer needs. Unique double-sided cross spot welding equipment, reducing equipment cost and simplifying ...

Take your battery assembly operations to the next level with JOT Automation. Whether it's battery module assembly, battery pack ...

Highly standardized, with automation modules selectable based on customer needs. Unique double-sided cross spot welding equipment, reducing ...

With flexible systems and smart technologies, our robots streamline battery pack assembly, cut costs, and improve both quality and worker safety. Automated solutions for the application of ...

Take your battery assembly operations to the next level with JOT Automation. Whether it's battery module assembly, battery pack assembly, or fully automated, end-of-line battery assembly, ...
