Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

Bluesun and the Nepedoni team introduced a Liquid Cooling Energy Storage Container Project in Bulgaria, featuring high-efficiency thermal management and modular design to support ...

The Shanghai-based manufacturer has installed 90 SigenStacks at a solar project in Malko Tarnovo, Bulgaria, near the ...

All facilities must be connected to Bulgaria's grid and operational by March 2026. RESTORE is part of Bulgaria's National ...

The RESTORE programme aims to help Bulgaria increase its share of wind and solar in the electricity mix while maintaining grid ...

Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date.

The selected projects will deliver a total usable energy storage capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three times the minimum target of 3 ...

Three years ago, SCU deployed the country's first 40ft containerized energy storage system at a solar farm in Bulgaria, setting a ...

All facilities must be connected to Bulgaria's grid and operational by March 2026. RESTORE is part of
