Can you make money from solar panels?

You can make money from solar panels via the Smart Export Guarantee (SEG). The SEG is a form of solar funding that allows you to make a small amount of money from feeding your spare electricity back into the grid. The best rate available nationwide is 24p per kilowatt hour (kWh) from Octopus Energy.

Can solar panels store energy?

It's important to note that solar panels cannot store energy. So your electric car can only be charged by the panels when it's sunny. To store energy from the panels, you will have to invest in a home battery system, like the Tesla Powerwall, or Nissan's xStorage.

Should you install solar panels at your home?

As the most basic, you can always install solar panels at your home and then generate electricity. You can then decide what to do with the energy generated. You can use it yourself and make money from the savings in lower energy bills. If you have excess energy, you can even sell it to your local energy company.

Are solar panels a good investment?

Solar panels are a promising investment for anyone looking to make money while contributing to a sustainable future. There are various ways to profit from solar panels, whether it's through installing them at home, becoming a solar panel installer, or even renting out your panels to other homes and businesses.
