At GES Energy, we proudly supply and install Sigenergy's next-generation hybrid inverter and battery storage systems - delivering smart, flexible, and future-proof power solutions for ...

At Solahart Canberra, we install and recommend only the highest quality battery storage systems from SolarEdge, Tesla and GoodWe for the most efficient energy storage. Excess solar energy ...

Ekus Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ambitious climate goals.

As Australia accelerates its renewable energy transition, the Canberra 2024 Energy Storage Power Station Tender represents a pivotal moment for global energy storage providers. This ...

The government's procurement process is already open for the Big Canberra Battery--a three-stage energy storage project through which it aims to get a 250MW grid-connected BESS ...

How The Act Battery Rebate (Next Gen) Works Eligibility For Act's Battery Rebate How The Act Selects Pre-Qualified Installers How Does This Change Roi For A Battery System in The Act? Other Benefits of A Battery Storage System Want More info? Check Out These Resources Reducing your carbon footprint By storing and using surplus solar energy, households can get close to using 100% of their power from renewable sources. Simple grid-connected solar (only) systems still rely on 50%+ of their electricity coming from the grid. Reducing demand for grid power will accelerate the energy tran... Backup power in a blackout Although the ACT electricity network has been fairly stable, the ability for households to keep the lights and fridge on during a blackout can be an important factor when deciding whether to invest in a solar battery. Products such as the LG Chem or Tesla Powerwall have an inbuilt battery inv...
