-----

Community Batteries are shared energy storage systems that benefit entire neighborhoods. They allow residents to benefit from stored solar energy without needing to ...

The 250 megawatt/500 MW hour Williamsdale battery energy storage system located 35km south of Canberra will store enough renewable energy to power one-third of the capital for two hours ...

The ACT Government has taken delivery of its Big Canberra Battery transformer, which is set to ensure stored electricity is converted to the correct voltage to be safely supplied ...

This 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) is part of the Big Canberra Battery project and can store enough renewable energy to power one ...

Designed to tackle the intermittency of wind and solar power, this pumped hydro initiative could store enough electricity to power 200,000 homes for 8 hours--equivalent to keeping Sydney ...

The ACT Government has reached a major milestone in its work to future-proof Canberra's energy supply. The development application has been approved to deliver Stream ...

Apart from three solar farms located within the ACT's borders, some 95% of its renewable power is generated by five wind farms located in suitable areas in the states of New ...

Ekus Energy has finalized financing for its 250 MW/500 MWh energy storage system in Canberra, contributing to the energy security of the ACT and its ambitious climate goals.

Battery Specifications: The Big Canberra Battery is a 250-megawatt (MW), 500 MWh (megawatt-hour)
