---

From the historic city of solar Pula to the coastal gem of solar Zadar, and the innovation-driven Solvis Croatia, the nation is setting benchmarks in solar energy production.

Croatia is expected to surpass 1 GW of solar power by 2025, driven by a significant increase in installations and supportive policies. The expansion is part of the country's broader ...

Listed below are the five largest upcoming Solar PV power plants by capacity in Croatia, according to GlobalData's power plants database. GlobalData uses proprietary data ...

In 2018 and 2019 and in collaboration with the City of Krizevci, ZEZ also successfully implemented Krizevci Solar Roofs, the first community energy projects in Croatia with 30 kW solar PV plants ...

In 2025, Croatia achieved a significant milestone by surpassing 1 GW of installed solar capacity, marking a pivotal moment in ...

Croatia crossed the 1 GW milestone in May 2025 and, if current trends persist, could reach 1,290 MW by December 2025. The self-supply sector, particularly households and ...

In late September 2025, Croatia achieved a significant milestone in its renewable energy sector. The solar power plant in the city of Belisce became the first in the country to be connected to ...

Croatia is expected to surpass 1 GW of solar power by 2025, driven by a significant increase in installations and supportive policies. ...

Croatia installed a total 397 MW of solar in 2024, bringing its cumulative capacity to around 872 MW, and surpassed the 1 GW milestone in May.

ZAGREB (Croatia), July 16 (SeeNews) - Croatian renewable energy project developer Solektra said it has won a contract to build a 30 kilowatt solar power plant in the village of Lopatinec, in ...

Croatia installed a total 397 MW of solar in 2024, bringing its cumulative capacity to around 872 MW, and surpassed the 1 GW ...

By combining a 30 kW solar array and a 2.5 MW biomass system, a flower producer in northern Croatia is now meeting over 70 percent of its electricity demand and ...
