This guide explores how tailored lithium storage designs address Split's unique energy demands while complying with EU sustainability standards.

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Sibenik, marking a significant step in modernising the country's ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Sibenik, marking a ...

Croatia plans to install 600 MW of storage capacity by 2030 - enough to power 400,000 homes for a full day. The current project represents 26% of this national target.

In November 2020, we contracted the development of the 1 MW battery storage system (BSS) that can store 1.44 MW of electricity. This turnkey project encompassed the final and detailed ...

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS)

combined with a virtual power plant (VPP) in Sibenik.

But here's the twist: this Adriatic nation is quietly building a niche in cylindrical lithium battery manufacturing, driven by its growing renewable energy sector and EU sustainability goals.

In November 2020, we contracted the development of the 1 MW battery storage system (BSS) that can store 1.44 MW of electricity. This turnkey ...

Croatia is rapidly advancing its energy storage projects to support renewable integration and grid stability. This article explores the country's initiatives, challenges, and opportunities in energy ...
