With an investment of at least \$1 billion, the plan to construct two direct lithium extraction plants in the Uyuni salt flat is not just about capital; it's about redefining Bolivia's role ...

The Uyuni Salt Flat, the largest lithium deposit in the world, is at the center of these efforts. These projects aim to increase production capacity significantly by 2030, contributing ...

Bolivia's government and Chinese consortium CBC, which includes battery manufacturer CATL, have signed an agreement for CBC to build two direct lithium extraction ...

Despite having the largest lithium resource globally, Bolivia has struggled to develop its lithium industry. Political, social and environmental obstacles have blocked the growth of lithium ...

Discover how Bolivia navigates technical hurdles and political tensions to unlock its vast lithium reserves for the global battery market.

Yacimientos de Litio Boliviano (YLB) has shortlisted four companies for lithium pilot plants in Bolivia's salt flats. The bidders are China's CBC, Italy's Protecno, France's Eramet, ...

Bolivia's government and Chinese consortium CBC, which includes battery manufacturer CATL, have signed an agreement for CBC ...

La Paz (AFP) - Bolivia said Tuesday it had signed a \$1 billion deal with China's CBC, a subsidiary of the world's largest lithium battery producer CATL, to build two lithium ...

Bolivia's government has formalized an agreement with the Chinese consortium CBC, which includes the
