Is there a telecom company in Czech Republic?

There is a Czech Telecommunication Office (Czech: Česká Telekomunikační úřad) called CTU. Telecom companies have included Česká Radiokomunikace, O2 Czech Republic (formerly Telefonica O2 Czech Republic), Vodafone Czech Republic (formerly Oskar Mobil a.s.), CETIN, CS Link, Eurotel, Skylink and Telekom Austria Czech Republic.

What is a base station?

Base station (or base radio station, BS) is - according to the International Telecommunication Union's (ITU) Radio Regulations (RR) - a "land station in the land mobile service." A base station is called node B in 3G, eNB in LTE (4G), and gNB in 5G.

What is a wireless telephone base station?

A wireless telephone base station communicates with a mobile or hand-held phone. For example, in a wireless telephone system, the signals from one or more mobile telephones in an area are received at a nearby base station, which then connects the call to the land-line network.

What is a base station in a two-way radio system?

In professional two-way radio systems, a base station is used to maintain contact with a dispatch fleet of hand-held or mobile radios, and/or to activate one-way paging receivers. The base station is one end of a communications link. The other end is a movable vehicle-mounted radio or walkie-talkie.
