-----

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with ...

We're pleased to get your Inquiry and we will reply you as soon as possible. We stick to the principle of "quality first, service first, continuous improvement and innovation to meet the ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic ...

The PowerBase is a robust energy storage system on a steel frame with the footprint of a standard ISO 20-foot container. It comes pre-wired and pre-configured to reduce installation ...

Transform shipping containers into battery energy storage systems (BESS). These containers can house batteries for storing excess energy generated from renewable sources such as solar or ...

The modular nature of a DER also allows for multi-stage deployments, firstly deploying the partial asset, giving the most immediate value considering the local conditions and eventually leading ...

Equipped with photovoltaic MPPT interface, PCS, STS (grid connected and off grid switching, diesel generator interface, fire protection, monitoring system, etc.)

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi ...

A: Once we promise the delivery time, we will try our best to do so. Special procedures such as emergency
