---

With 35,000 solar panels and an installed capacity of 21.09 MWp, the project strengthens the country's energy matrix and contributes to greater stability in electricity supply ...

Solar and wind energy present a real opportunity for El Salvador to transition to a more sustainable and diversified energy future. El Salvador already has the foundation in ...

AES" Meanguera del Golfo solar plant--the first of its kind in Latin America--relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to ...

This one-of-a-kind energy project, which is bigger in area than the entire country of El Salvador, has the potential to revolutionize renewable energy generation at scale.

This one-of-a-kind energy project, which is bigger in area than the entire country of El Salvador, has the potential to revolutionize renewable ...

This report summarises IRENA analysis to identify favourable zones in El Salvador for utility-scale solar PV and onshore wind projects, and their ...

At the forefront of this effort is AES El Salvador, which is overseeing the full operation of its Bosforo solar project and the upcoming ...

ates all the components into one system. Consisting of 28 megawatt (MW) solar photovoltaic (PV) and a 100 MWh five-hour duration energy storage system, the project provides peak capacity ...

Key highlights from the NDC El Salvador commits to reducing its greenhouse gas (GHG) emissions in the energy and the agriculture, forestry, and other land use (AFOLU) sectors.

This report summarises IRENA analysis to identify favourable zones in El Salvador for utility-scale solar PV and onshore wind projects, and their associated techno-economic parameters.

At the forefront of this effort is AES El Salvador, which is overseeing the full operation of its Bosforo solar project and the upcoming Capella Solar project. Combined, ...

In a significant step forward for its renewable energy ambitions, El Salvador has received a key delivery of solar components from Nantong Gamko New Energy. The ...
