What are residential energy storage solutions?

Residential energy storage solutions are your home's energy insurance policy. These battery systems capture electricity--whether from your solar panels or the grid--and save it for when you need it most.

What types of energy storage systems does sigenergy offer?

Sigenergy offers home battery storage, residential ESS, and commercial solar solutions. Explore our innovative energy storage systems for sustainable power management.

What are energy storage systems (ESS) for the home?

Energy storage systems (ESS) for the home store electricity for later use, typically using batteries like lithium-ion or lithium iron phosphate.

How does the Fox Hills Energy Storage System work?

You may also receive emails and/or texts, based on your notification preferences. The Fox Hills energy storage system, which is located next to our substation in the Rosebank neighborhood of Staten Island, furthers our clean-energy goals by storing 7.5 MW /30 MWh of energy, including from renewable sources, such as solar and wind.
