What are insulated food boxes & Pan carriers?

Insulated food boxes and pan carriers are the perfect way to transport hot and cold food products directly from your kitchen to catered events, nursing homes, hospitals and even personal residences. We offer Cambro hot food carriers capable of transporting up to six, full sized food pans. Our insulated food boxes are not just for hot foods!

What is a food cart & container?

Transport carts and containers safely move food and ingredients between locations or venues while keeping them hot or cold. Portable food and beverage stations serve as mobile hubs on a buffet line or as small storefronts like the CamKiosk models. Food cart categories further break down by temperature.

How does a food delivery cart work?

Food delivery carts and insulated containers keep meals and ingredients fresh and hold them at food-safe temperatures during transportation. Insulated carts keep food hot or cold or both; models like the Cambro Pro Cart Ultra use electricity and multiple temperature zones to store hot and cold food at the same time.

What is a heated food pan carrier?

Login or enter your email to be instantly sent the price! A heated food pan carrier is an essential item for catering operations, banquet halls, and cafeterias looking to serve their meals in places far from their kitchens. Designed with thick walls and superior insulation, these carriers consistently hold food temperatures and reduce heat loss.

These insulated units help caterers deliver fresh, hot meals and chilled beverages anywhere. From huge carrying carts to simple food delivery bags, KaTom has the insulated food carriers ...
