What is New York's first bulk energy storage request for proposals?

New York Gov. Kathy Hochul has launched New York's first bulk energy storage request for proposals (RFP),intended to procure 1 GWof bulk energy storage as part of New York's 6-GW energy storage roadmap. An energy storage project in Hubbardston,New York. (Credit: Greg M. Cooper/Borrego)

Are battery storage projects eligible for energy storage incentives?

The Program Manual [PDF]provides a full list of project eligibility and requirements. For battery storage systems above five MW of AC power,projects could be eligible for incentives through the Bulk Energy Storage Program. Additional details on both the Residential and Retail Energy Storage Incentive are available in the program manual [PDF].

Are energy storage projects safe in New York State?

New York State has some of the most rigorous safety standards for energy storage projects in the country, reinforced by independent nationally recognized experts to ensure full compliance.

How are incentives provided for residential and retail energy storage projects?

Incentives for all residential and retail storage projects are provided through a network of participating contractors approved under the Residential and Retail Energy Storage Incentive program who contract directly with the customer. The program breaks out incentives geographically by sector and region in the Megawatt hour (MWh) Block Dashboards.

With projects like State Grid Gansu's 291kWh solid-state battery cabinet procurement (JPY645,000 budget) [1] and Southern Power Grid's 25MWh liquid-cooled cabinet ...

Once proposals are deemed eligible by NYSERDA, proposers will be invited to submit a "Step Two" bid proposal for project evaluation.

Governor Hochul announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage ...
