-----

As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and reliability; helping to stabilize the national grid, ...

After a period of dedicated efforts, on January 27, 2025, the Wakenaam Diesel and BESS Storage Project was officially completed.

The 5-megawatt-peak (MWp) solar plant, paired with a 7.5-megawatt-hour (MWh) Battery Energy Storage System (BESS), was officially inaugurated on Saturday by Prime ...

-engineered to ensure uninterrupted energy delivery in the event of turbine failure, LNDCH4 Guyana says LNDCH4 Guyana has announced the arrival of the Backup Battery ...

Phase 2 further reduces Guyana's dependence on imported heavy fuel oil (HFO), which has historically exposed the country to price volatility and supply disruptions. As the ...

Designed to respond instantaneously, the BESS provides critical backup power to protect the integrity of the electrical grid and maintain operational stability in unexpected ...

Designed to respond instantaneously, the BESS provides critical backup power to protect the integrity of the electrical grid and ...

Phase 2 further reduces Guyana's dependence on imported heavy fuel oil (HFO), which has historically exposed ...

Designed to respond instantaneously, BESS provides "critical" backup power to protect the integrity of the
