Should I buy a 4000-watt solar panel kit?

Don't think that a tiny house and solar panels are incompatible. A 4000-watt or 4-kW solar panel kit may be the best solution because it doesn't take up much space, is affordable, and yet can significantly reduce your energy bills or even make you completely energy independent. What's in a 4000-watt solar panel kit?

Are string inverters a good option for home solar?

When powered by full sunlight, string inverter systems are a cost-effective solution for home solar installations. An unobstructed south-facing view of the sun will maximize your solar power. If your system is partially shaded by trees, chimneys or other obstructions, the string inverter output will drop along with the output of the whole system.
