Choose Between Ground and Roof Mount
Make Sure You Have Enough Space For The Solar System
Reduce Your Solar System Cost by 30% with Federal Tax Credit
There is no solid answer as to what the best solar panel system for your home is: ground-mounted or roof-mounted. The majority of homeowners opt for roof mounts, because they are less expensive to install and take up less room on the property. On the other hand, ground mounts are a way easier to access for installation and repair. But there is one ...
