-----

Discover how innovative oil containers are transforming oil storage with advanced design, eco-friendly materials, and smart ...

COLLAPSECON containers are collapsed at speed by the COLLAPSECON Operating Station, the only automated solution on the market. It is designed to seamlessly integrate into ...

This study seeks to explore the effectiveness of employing foldable containers (FLDs) in liner shipping to reduce relocation and the empty containers and bunker costs (BCs) ...

"The opportunity to place five of our folded containers in the same slot as one 40" HC standard container is a game changer in managing container movements, maximizing ...

Compact Container Systems has launched a five-in-one, foldable shipping container that reduces repositioning costs, storage space, and carbon emissions.

As mentioned above, the foldable or collapsible containers that have been actually commercialized to date are SIO, Fallpac and HCI. Among them, only HCI is fully foldable ...

Discover how innovative oil containers are transforming oil storage with advanced design, eco-friendly materials, and smart technology. Learn about the evolution, benefits, and ...

By adopting durable, reusable packaging systems like Hoppers, IBC totes, Drums, and Collapsible Bulk Containers, oil companies can streamline their supply chains, reduce ...

We analyze the effects of foldable containers using a newly developed multi-port and multi-period container

planning model. The proposed model is a large-scale optimization problem, for ...

Whether on offshore platforms, for fracking trucks, mobile drilling rigs, or FPSO units, our container solutions are designed for optimal use under demanding conditions.

CCS claims that the SeaFold 40" box could potentially slash the cost of repositioning empty containers by 56%, save storage space by ...

CCS claims that the SeaFold 40" box could potentially slash the cost of repositioning empty containers by 56%, save storage space by 80%, and drive down carbon ...
