-----

Founded in 2024, Naxion Energy develops high-performance sodium-ion battery packs for mobility and energy storage applications. In the storage segment, it offers residential, ...

Naxion Energy announced the launch of its Sodium-ion energy storage systems designed and manufactured in Coimbatore. The platform integrates an inbuilt battery, inverter, ...

Designed, developed, and manufactured at its Coimbatore plant, the new all-in-one energy storage platform comes with a fully integrated battery, inverter, and solar MPPT.

Designed, developed and manufactured at their Coimbatore plant, the new all-in-one energy platform is engineered to meet the growing demand for clean, reliable and ...

Naxion Energy has launched India's first sodium-ion energy storage systems, providing a local, safe, and scalable alternative to traditional lead-acid batteries.

Naxion Energy, formerly known as Sodian Energy, has announced the commercial launch of sodium-ion-based energy storage systems manufactured at its Coimbatore facility.

Naxion Energy has launched what it says is India's first sodium-ion energy storage systems, aiming to offer a fully local and safer alternative to lead-acid batteries for residential, ...

Naxion's sodium-ion energy storage platform is designed to directly replace diesel generators and address the long-standing limitations of traditional lead-acid-based backup ...

It offers a safer, lighter, and more cost-efficient alternative to traditional lead-acid batteries. This system meets
