Is Surabaya a pilot city for energy transition in Indonesia?

Surabaya, Indonesia Sentinel -- Surabaya, the capital of East Java, has been selected as a pilot city for energy transition and efficiency efforts in Indonesia. The city officially launched its building sector decarbonization program on April 16, 2025, under the Sustainable Energy Transition in Indonesia (SETI) initiative.

Why is Surabaya positioned as a showcase for energy transition?

"For these reasons, Surabaya is being positioned as a showcase for energy transition and building sector efficiency through SETI. We aim to ensure its economic growth goes hand in hand with decarbonization efforts, creating a low-carbon and sustainable urban environment," she added.

What sustainable initiatives are being implemented at Joyoboyo?

City Secretary Ikhsan highlighted ongoing sustainable initiatives, such as the energy-efficient City Hall building and the Joyoboyo Intermodal Terminal, which utilizes environmentally friendly materials. "We are proud to be chosen as a pioneer in building sector decarbonization," Ikhsan said during the launch event.

Through SETI, Surabaya is expected to become a model city for energy transition and efficiency in the building sector, support the achievement of sustainable development ...
