the East African Community.

The following page lists all power stations in Rwanda. The country is in the midst of a rapid expansion of its electrical grid, and many new plants are proposed or under construction.

Rwanda is exploring the potential to establish a solar power plant with a capacity of 30 megawatts (MW), according to Jimmy Gasore, the Minister of Infrastructure.

The PV plant, which increased Rwanda's generation capacity by 6%, is situated 60km from the capital of Kigali, on land owned ...
