Does Malaysia export solar panels?

Most of these solar panels are manufactured for export to the US, with Malaysia's installed solar capacity at only 4.2GW. From January to September 2024, Malaysia, which is a major hub for solar panel manufacturing in South-east Asia, exported nearly US\$1.8 billion (S\$2.4 billion) worth of solar panels. Swipe. Select. Stay informed.

Are Chinese solar panels still made in Malaysia?

The only Chinese company still making some solar panels in Malaysia is Longi, an industry giant. When it opened its third Malaysian factory on the outskirts of Kuala Lumpur in 2023, it heralded the opening as a "pivotal moment in Longi's global endeavors." Its executives boasted of creating 900 jobs and promised to increase the openings to 2,000.
