Can Kolari repair a Leica M9 sensor?

That's where Kolari came in. We're happy to announce that we can repair the Leica M9 sensor and replace it with corrosion resistant glass starting at \$999. We've removed Leica coverglass before, but haven't looked into this repair earlier since there was a warranty option through Leica.

Can a Leica M9 sensor be repaired?

Check our inventory here In August 2020, Leica announced that they will no longer be able to repair the Leica M9 sensor. This sensor had an issue with corrosion or "sensor rot" that was caused by oxidation of the sensor glass. Sensors are typically built with a fused clear glass that covers the BGA grid and sensor microlenses.

Why is my M9 sensor glass corroding?

This became a particular issue when the M9 sensor glass started corroding across the board. UVIR cut glass is typically made with a Schott BG type material, which is chemically prone to oxidation. We saw this over a decade ago with our first hot mirror filters which are built with this same type of glass.

Which Leica sensor is best for a Leica M9?

Leica made a range of sensors throughout the lifespan of the M9's production line. CCD 11+ sensors came at a later point and did not suffer from the acid gel formation issue present in earlier models. CCD 11+ sensors have a much harder original adhesive bonding the glass to the sensor and are more time consuming to replace with Schott Glass.

We are now using a new BG61 glass with anti-reflective coating, which is nearly an identical match to the original M9 glass filter. We designed the BG61 to be the same thickness as the ...

Our solar glass with renowned "Anti-soiling" and "Easy to clean" coatings. High performance solar glass for Bifacial modules, ...

We are now using a new BG61 glass with anti-reflective coating, which is nearly an identical match to the original M9 glass filter. We designed the BG61 to be the same thickness ...

Application: Suitable for semiconductor laser focusing. Looking for specific info? Would you like to tell us about a lower price?

PV Solar Cell Glass price December 2025 and outlook (see chart below) Northeast Asia:US\$1.57/KG, -2.5% down The chart below summarizes PV Solar Cell price trend per ...

High-quality M9 glass for your device at unbeatable prices on AliExpress! Find durable, scratch-resistant M9 glass with perfect fit and clear display. Shop now for the best M9 glass deals and ...

We are a vertically integrated solar manufacturer and energy producer. Discover how we're revolutionizing clean energy, reducing costs, and driving sustainability--all made in the United ...

We're now able to get a success rate of over 95% for all Leica M9 models, and closer to 99% for CCD ID 5 models.

This factory will employ 150 full-time, well-paying jobs in an economically depressed area. We will also manufacture a 1 megawatt mono-crystalline solar panel facility inside this factory, ...

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a ...

Our solar glass with renowned "Anti-soiling" and "Easy to clean" coatings. High performance solar glass for Bifacial modules, Glass-glass modules, Floating PV modules, Rooftop PV, BIPV, Car ...

We're happy to announce that we can repair the Leica M9 sensor and replace it with corrosion resistant glass starting at \$999. We've removed Leica coverglass before, but ...
