The Solarplaza Summit Energy Storage Spain, hosted in Madrid on the 24th of October 2024, will represent a prime opportunity to lead in the energy storage space, driven by ...

The European Commission has approved a new aid scheme that will allow Spain to deploy large-scale electricity storage, both in hybridisation with renewable energy facilities ...

The scheme aims to deploy between 2.5 and 3.5 gigawatts (GW) of new storage capacity, enhancing the flexibility and resilience of the national power system while enabling ...

At an event in Madrid, the government presented its new Electricity Transmission Grid Planning strategy to 2030, outlining a sweeping EUR16 billion investment package designed ...

The country aims to deploy 22 GW of energy storage by 2030 and 50 GW by 2050. Currently, the total installed capacity of energy storage in Spain--covering planned, ...

Welcome to Madrid's energy landscape, where solar power and energy storage solutions are rewriting Europe's renewable playbook. With Spain aiming for 22.5GW of energy ...

Successful applicants will receive up to 85% of their civil works, storage systems, auxiliary equipment, and system costs for grid ...

It will be part-financed by the European Regional Development Fund (ERDF). It will take the form of direct grants covering no more than 85% of a project's capital expenditure, ...

Successful applicants will receive up to 85% of their civil works, storage systems, auxiliary equipment, and system costs for grid-connected battery, pumped hydro, and thermal ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage.

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will ...

The selected projects range from large-scale battery systems to industrial thermal storage and new pumped-hydro plants, reflecting both the technological maturity of the sector ...
