Is 5G available in the Maldives?

5G: The Maldives was an early adopter in South Asia of fifth-generation mobile technology. Dhiraagu launched the first commercial 5G service in the Maldives (and South Asia) in 2019 on a limited basis in Malé. Ooredoo followed with a 5G launch in select areas of Greater Malé; by December 2020 .

What is mobile network coverage in Maldives?

Mobile connectivity is the primary means of internet access for most Maldivians, and coverage has expanded to virtually the entire country. Between Dhiraagu and Ooredoo, comprehensive mobile network coverage reaches nearly 100% of the Maldives' inhabited islands . Key developments in mobile network generations include:

How fast is 4G in the Maldives?

Even on 4G, typical download speeds of 20-40 Mbps are common in populated areas. This means mobile users in the Maldives can stream HD videos, participate in video calls, and use data-heavy apps with relative ease - a significant achievement for a tropical island nation.

Who owns the telecom market in Maldives?

The Maldives' telecom market is a duopoly dominated by Dhiraagu and Ooredoo, with Dhiraagu posting about MVR 2.8 billion revenue in 2019 and Ooredoo about MVR 2.03 billion, and Dhiraagu is 52% owned by Batelco and roughly 42% by the Maldivian government.
