-----

We have recently developed innovative product lines designed to meet the expanding requirements of new energy containerized solutions, including BESS (Battery ...

ABB has responded to rapidly rising demand for low and zero emissions from ships by developing Containerized ESS - a complete, plug-in solution to install sustainable marine energy storage ...

In response, MEOX Off-Grid Container Power Systems has emerged as a modular, rapidly deployable solution (4-hour setup) that integrates solar, storage, and diesel backup for reliable ...

The customized containerized solutions are suitable for Maritime purposes, either mobile or stationary. Together with our partners we customize our energy storage solutions in an ISO ...

The HY Module for Bulkers is a compact, containerised solution including an energy storage system. Its EMS will optimise the power production and consumption onboard.

Energy-storage solutions (ESS) from Siemens are creating more agile, profitable and sustainable vessels. Whether it's a new build or a refit, a hybrid or an all-electric vessel, these battery ...

By moving to a Kongsberg hybrid or electric propulsion, owners have in-built flexibility that not only provides an unsurpassed level of operational redundancy, by reduces emissions and fuel ...

Corvus Energy is at the forefront of developing zero-emission solutions, including a full range of marine battery energy storage and fuel cell systems. Many of the world's first all-electric and ...

ABB has responded to rapidly rising demand for low and zero emissions from ships by developing
