-----  
What is AED energy?

Stores energy for weeks, delivering 10+ hours of reliable power on demand. Compact, transportable units enable rapid deployment with minimal infrastructure, anywhere. Non-toxic, non-flammable storage with no risk of thermal runaway. Aed Energy Ltd. (No. 14531389) is a Registered Company in England and Wales.

What is an AED machine?

AED is an acronym for Automated External Defibrillator, a portable medical device that automatically analyzes an abnormal heart rhythm (arrhythmia) of a sudden cardiac arrest (SCA) victim and delivers a shock of controlled electricity to restore an effective rhythm. AEDs are portable, lightweight, and easy to use.

Who can use an automated external defibrillator?

While automated external defibrillators are designed to be used by anyone, training builds confidence and prepares you for use. We also carry AED packages, electrode pads, batteries, cabinets, cases and more. Buy AEDs from any of the top AED brands. Our side-by-side comparison and free AED buying guide make it easy.
