Why is mobile energy storage a stranded asset?

Stationary storage lacks flexibility, suffers from low utilization and from the risk of becoming a stranded asset. Power Edison addressed these issues by developing mobile energy storage platforms: TerraCharge(TM) and AquaCharge(TM) for mobile land-based and water-based mobile energy storage respectively.

What services does power Edison offer?

Power Edison's comprehensive offerings include regulatory policy support, grid analytics, customized engineering designs, project finance and operations and maintenance. Power Edison is an entrepreneurial company based in the greater New York area with experience in technologies, financing, and business models for mobile energy storage systems.

What is a power Edison mobile ESS?

Power Edison mobile systems are designed - from the ground up - to be modular, robust, reliable, flexible and cost-effective electrical capacity resources that can provide a wide spectrum of electricity-related services and benefits. To add even more flexibility, Power Edison mobile ESS's can be purchased, rented or leased.

Can a power Edison mobile ESS be purchased or leased?

To add even more flexibility, Power Edison mobile ESS's can be purchased, rented or leased. Power Edison's comprehensive offerings include regulatory policy support, grid analytics, customized engineering designs, project finance and operations and maintenance.

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, ...
