Key contracts have been signed for the first-ever grid-scale battery storage project in Namibia, signifying the African country's dedication to modernising its energy infrastructure, according to ...

The project will also pioneer utility-scale energy storage in the country, incorporating a 4MWh Battery Energy Storage System (BESS), 18km transmission line and a substation funded with ...

It's 45°C in N'Djamena, and a local hospital's diesel generators just sputtered out. Now imagine instead a sleek, shipping-container-sized system quietly keeping life-saving ...

Djermaya is the first independent power producer in Chad, as well as the first and largest utility-scale PV project in the region to integrate renewable power into the national grid and to ...

A contracted 32MW solar-plus-storage project just north of Chad's capital N'Djamena is one step closer to fruition after the African Development Bank (AfDB) provided it ...

The project will also pioneer utility-scale energy storage in the country, incorporating a 4MWh Battery Energy Storage System (BESS), 18km transmission line and a substation funded with ...

Wait, no - it's not all doom and gloom. The government's new Energy Storage Incentive Program offers 15% tax breaks for systems exceeding 500kWh capacity [3]. Combine this with plunging ...

This project is the Group's first project in Africa to integrate a storage system, ensuring proper integration of intermittent solar energy into the N'Djamena electricity grid."

Discover how this 50 MW project is reshaping energy security in Central Africa and creating opportunities for
