Do solar inverters come with a warranty?

String inverters typically come with 10-12 years of warranty coverage, whereas microinverters and power optimizers are often covered for 25 years. Labor and shipping expenses are generally not included in solar inverter warranties, but some of the strongest brands will cover one or both of these costs.

Does a warranty cover a replacement inverter?

The top inverter manufacturers, such as Enphase, SolarEdge, and SMA, cover shipping costs for replacement equipment as part of their warranty agreement, so long as the "claim is justified," meaning they've confirmed it's a reasonable claim, and you followed the proper return merchandise authorization (RMA) process.

How long does PV warranty insurance last?

Check out in 140 seconds how you will benefit from our PV Warranty Insurance for up to 30 years. Our PV Warranty Insurance is straightforward and effective: manufacturers protect their ability to pay excessive warranty claims on modules for a period of 25 years (up to 30 years for glass-glass modules).

Are solar panels covered by a separate insurance policy?

Separate insurance policies for solar panels may offer additional benefits, such as coverage for loss of income due to system downtime or the costs associated with temporary replacement power. These added protections could provide financial security in unexpected disruptions to your solar panel system.
