---

There are no harmful carbon emissions with solar power generation, which means the air that you breathe will be cleaner and there will be fewer allergies and air quality issues.

We've already built a growing business installing commercial and domestic solar in the region, working with PPUC and the National Development Bank of Palau to help Palau reach its Net ...

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage ...

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect ...

The National Development Bank of Palau (NDBP) has approved a financing program for climate-friendly and energy-efficient room air conditioners in Palau. This development is a key ...

We provide affordable, high-quality solar systems for homes, helping families reduce their energy bills and carbon footprints. From small businesses to large-scale operations, we design and ...

Thanks to its low energy fans, it is able to continuously replace the indoor air, reducing the concentration of pollutants and the many associated health risks in the most energy efficient way.

Thanks to its low energy fans, it is able to continuously replace the indoor air, reducing the concentration of pollutants and the many associated health ...

The investment will enable up to 25 per cent of Palau's total electricity demand to be provided from renewable energy. This project reduces Palau's reliance on imported diesel, lowers ...

? Stay cool and save energy with our Solar Air Conditioner--100% energy-saving during the day, no inverter needed, and seamless AC power input! ? We...

In 2022, British electrical engineering company Utiligence secured a contract to install domestic solar systems in Palau through an Asian Development Bank partnership initiative.

Palau Solar is a subsidiary of Utiligence (<https://utiligence.co>), created to design, supply and install domestic solar power throughout the archipelago of the islands of Palau.
