-----

With a peak capacity of 1.04 GW and a battery energy storage system (BESS) of 500 MW, the project is set to become Europe's largest hybrid solar power plant. Graniceri ...

Poland-based R.Power began work on its Lazuri photovoltaic plant of 55 MW in peak capacity in Satu Mare county in northwestern Romania. The company is energizing four ...

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a 51.4 MW PV plant and and a battery ...

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a ...

The eligible activities which can be financed are the construction of renewable wind, solar or hydro power generation capacity and the purchase of new plant/equipment for construction of ...

Econergy plans to equip every connected and ready-to-connect solar project in Romania with electricity storage capacity. The aim is to consolidate and expand its position in ...

Rezolv Energy and Monsson received all approvals from local authorities for the construction of Dama Solar. The photovoltaic facility in western Romania will likely become the ...

All generation and energy storage facilities of 5 MW or larger in Romania will be required to secure grid access via annual auctions beginning January 2026. The country's ...

This power station will not only claim the title of the largest solar power plant in Europe, but its fully matched
