Is solar street lighting a viable solution in the UK?

Solar street lighting is becoming an increasingly attractive and sought-after solution in the UK.

Where can I buy LED street lights in the UK?

In addition to standard LED Street Lighting, Bri-Tek Technologies is also the UK's largest supplier in LED Solar Streetlights. Our Solar Street Lights provide LED lighting using solar panels, which provides a green footprint for many requiring a reduction in carbon saving.

What is solar street lighting?

Solar street lighting is an excellent solution for temporary or essential works lighting. Solar lights, using redeployable solutions such as the below concrete blocks, can be installed quickly without the need for a mains connection, providing immediate illumination. This flexibility is beneficial for essential work or emergency repairs.

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.
