At Highjoule, we specialize in designing and manufacturing customized solar and energy storage solutions to meet diverse energy demands -- from grid-tied urban systems to remote off-grid ...

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

Paired with a Joos Solar all-in-one energy storage system, including a 15 kW inverter & 30 kWh LiFePO4 battery, the system powers facilities during low-light hours.

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

Discover advanced energy storage shipping containers designed for safety, scalability, and easy transport. Ideal for renewable energy projects, backup power, and off-grid ...

These are tailor-made energy systems that combine solar power generation with battery storage, engineered specifically for the unique demands of each site. Highjoule delivers personalized ...

We adapt our reference design to fit customers' specific energy storage/power requirements and environmental conditions. We use modelling simulation to optimize system design for ...

With multiple pickup and delivery locations across Canada, we offer quick delivery, competitive pricing, and technical modification capabilities that meet the precise needs of solar, wind, and ...

Discover our range of innovative solar panels on shipping container products engineered to meet your
