Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

How did intilion transport containers from China to Switzerland?

INTILION managed the entire transport chain from China to Switzerland - including shipping, customs clearance, and interim storage. Instead of relying on a complex road transport solution, INTILION chose an alternative approach: all 16 containers were transported together by inland vessel along the Rhine, from Rotterdam to Birsfelden.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

Why did intilion organize a lithium-capable interim storage facility?

Philipp Knaup, COO of INTILION AG To optimally support the construction progress, INTILION organized a lithium-capable interim storage facility with the highest safety standards near the project site. This made it possible to adapt deliveries flexibly to the construction phases.
