Why should you invest in solar panels for glass greenhouses?

Voltiris commercializes the first solar modules for glass greenhouses. This innovation allows for double-land use of greenhouses' surface, generating electricity with no reduction of crop productivity. For growers, this translates into improved energy independence, increased profitability, and reduced carbon footprint.

How much does it cost to register for a solar greenhouse?

Registration is free. Voltiris SA: Voltiris commercializes the first solar modules for glass greenhouses. This innovation allows for double-land use of greenhouses' surface, generating electricity with no reduction of crop productivity. For growers, this translates into improved energy independence, increased prof...

Can a luxury greenhouse be used as a solarium?

Your luxury greenhouse can also be designed as a solarium or a combination of the two, becoming your own personal "Secret Garden." We can create other structures as well, including pool enclosures and storage sheds. There are many options for a greenhouse frame, wall and roof coverings, venting and entryways.

What is a greenhouse integrated PV (gipv) module?

Get in touch! Traditional greenhouses rely on external fossil fuel derived energy sources to power lighting, heating and forced cooling. Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with no additional racking or support required.

Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with no additional racking or support required.
