It leads regional execution of solar and battery energy storage projects with a focus on Uganda, Kenya, Tanzania, and Rwanda. Astrovolt provides end-to-end capabilities including feasibility ...

Uganda has authorized Energy America and EA Astrovolt to develop a large-scale solar and storage facility as part of its 1 GW ...

Located in Kapeeka, in the central Ugandan district of Nakaseke, the project will be developed by Energy America's regional development subsidiary, EA Astrovolt. It will be ...

With a growing demand for stable electricity and ambitious renewable energy goals, Uganda has launched multiple power storage project bids to modernize its grid infrastructure.

Located in Kapeeka, in the central Ugandan district of Nakaseke, the project will be developed by Energy America's regional ...

The Government of Uganda has officially issued a Gazetted Policy Direction authorizing the development of a 100 megawatt-peak (MWp) solar photovoltaic (PV) power ...

The project expands bilateral economic and energy cooperation between the US and Uganda, building on initiatives such as ...

The 100 MWp solar photovoltaic (PV) power plant integrated with a 250 MWh battery energy storage system (BESS) project will be delivered by U.S.-based Energy ...

Uganda's government has approved the development of a 100-MWp solar power plant with 250 MWh of
