-----

DNV containers are built to meet the highest safety standards, ensuring they can withstand the rigors of offshore use. They are designed with reinforced structures, anti-slip ...

This article explores the benefits of using shipping containers in the oil industry and how they have been adapted to meet the specific needs of a constantly evolving sector.

DNV 2.7-1 certified offshore containers enhance oil & gas platform efficiency with anti-corrosion steel & explosion-proof features. Reduce maintenance time by 60%.

The A60 offshore workshop container, specifically designed for offshore platforms, offers a modular workspace that combines fire protection, safety, equipment management, and ...

Learn about the evolution, benefits, and future prospects of these cutting-edge solutions that enhance safety, efficiency, and ...

Offshore containers are more than just storage units; they're ...

Whether on offshore platforms, for fracking trucks, mobile drilling rigs, or FPSO units, our container solutions are designed for optimal use under demanding conditions.

These containers are stackable, easy to transport, and designed for crane lifting, making them highly efficient for marine logistics. Their modular nature allows for seamless ...

A five-in-one foldable container design could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS).
