-----  
How many 5G base stations will VNPT install this year?

According to Nguyen Anh Dung, Director of Enterprise Customer Division at VNPT, the company is expected to install approximately 20,000 new 5G base stations across the country to enhance network connectivity this year. VNPT effectively deploys Smart Agriculture Solution - ONE Farm. (Photo: VNA)

Does Viettel have 5G?

The company launched its 5G services on October 15, 2024, covering central areas in all 63 provinces and cities. By 2025, Viettel plans to expand its network by deploying approximately 20,000 new base stations, raising its 5G infrastructure to 50% of its 4G network.

Where will 5G be available in 2025?

It sets a target that by 2025, all localities, high-tech zones, IT hubs, R&D centres, innovation hubs, industrial parks, railway stations, seaports, and airports will have access to 5G services. The demand for 5G among individuals and businesses is growing rapidly.

Who gets a 5G subsidy?

Telecom firms that establish at least 20,000 certified 5G base stations between the resolution's effective date and December 31 will receive a 15% subsidy on equipment costs. VNPT staff install 5G base stations in Hanoi. (Photo: VNA) Customers experience Vinaphone's 5G service. (Photo: VNA)
