What does a solar panel installer's warranty cover?

Separate from the warranties provided by solar panel manufacturers, installer's warranties cover the workmanship of the installation itself. In essence, it's a guarantee by the company putting in your solar panels that they will fix any problems caused by faulty installation for a set period.

What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

What is a REC ProTrust warranty?

Performance warranty: 25-year warranty that promises your system will operate at 92% of its total power by the end of the warranty period, with a degradation rate of 0.25% per year. REC offers REC ProTrust warranties to those who install their panels by a REC-certified installer.
