Will a new battery storage facility strengthen Ukraine's grid?

Sept. 10, 2025. (Bohdan Nazarenko/DTEK) Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.

Does DTEK have energy storage facilities in Ukraine?

This was reported by DTEK's press service. The DTEK Group has connected six new energy storage facilities to the Ukrainian power grid, each with a capacity of 20 to 50 MW. The energy storage facilities were installed in the Kyiv and Dnipropetrovsk regions.

Will energy storage systems improve Ukraine's power grid?

DTEK reports that construction proceeded faster due to the need to complete the project before the onset of the autumn-winter period. Experts report that energy storage systems will provide Ukraine's power grid with additional resilience and stability.

How many energy storage facilities does DTEK have?

DTEK has launched 200 MW of energy storage facilities in partnership with Fluence, a US-based global leader in energy storage. This was reported by DTEK's press service. The DTEK Group has connected six new energy storage facilities to the Ukrainian power grid, each with a capacity of 20 to 50 MW.

The company has announced this initiative. In collaboration with Fluence Energy Inc., an American energy firm that contributed 698 Gridstack batteries for the endeavor, DTEK ...

A research team has developed an innovative graphene structure that significantly enhances the energy storage capacity and power output of supercapacitors. This ...

In the spring of 2025, Ukraine's energy sector finds itself at a crossroads. Underneath the constant hum of reconstruction and the lingering threat of war, a quiet ...

That event showcased 23 battery storage solutions specifically designed for Eastern European climates. One standout was a cryogenic battery system maintaining 90% efficiency at -20°C - ...

The DTEK Group has connected six new energy storage facilities to the Ukrainian power grid, each with a capacity of 20 to 50 MW. The energy storage facilities were installed in ...

DTEK Group, in partnership with American company Fluence, has officially connected Ukraine's largest battery-based energy storage ...

Ukraine's 200 MW energy storage system, built by DTEK and Fluence, enhances energy resilience, powers 600,000 homes, and supports renewable energy growth.

DTEK Group, in partnership with American company Fluence, has officially connected Ukraine's largest battery-based energy storage system to the grid. With a total ...

DTEK partnered with American energy firm Fluence Energy Inc. -- which provided 698 Gridstack batteries to the project -- to build and connect six new battery storage systems ...

DTEK company, together with American Fluence, have completed the construction of the largest energy storage system (BESS) in Eastern Europe, which will provide Ukrainians ...

Our 1 GW project combines gas, solar, and battery storage to secure Kyiv's grid, cut emissions, and support critical services. Explore investment in this high-impact initiative.
